

I have been an elected member of the governing board since November 2015. My responsibilities are to assess the special education needs (SEN) and sports (PE) provisions at Sacred Heart Catholic Primary School.

I have been working for the past 25 years within the Health and Social Care field and for the past 13 years I have been working as an inspector for the Care Quality Commission (CQC). The CQC is the regulator for Health and Social Care in England with the aim of driving improvement and positive outcomes for people using health and social care services in England.

I feel passionate of improving outcomes for vulnerable groups, which was the driving force for deciding to become a governor.

I look forward of serving the pupils, parents and teachers for the future and drive improvement at our school.

All the very best

Andreas Schwarz
