

## Vivienne Morgan – Parent Governor

I was elected onto the board as Parent Governor in December 2011 and am delighted to be part of the team since commencing my second term of office in January 2016. I am link governor for Safeguarding and Maths.

I have two children currently attending Sacred Heart and enjoyed being involved in school life through volunteering in class and supporting the PTA. This led me on to become a school governor so that I could use my skills and experience to support Sacred Heart to deliver on its mission and aims, and ensure that it continues to develop and offer our children the best possible education and supportive environment in which to learn.

I became Chair of Governors in January 2014 and since then have led the board through some key developments, including the succession of the previous headteacher and the reconstitution of the governing body.

I have a background in Financial Services, HR Consultancy, change management and implementation and have delivered significant change programmes across a wide range of commercial organisations.

I am passionate about working with the leadership team to continue the development of Sacred Heart, enabling every child to achieve their full potential.
