

## Sacred Heart Catholic Primary School Catch-Up Premium Strategy

### Strategy Statement

The Government has announced £1 billion of funding to support children and young people to catch up. This includes a one-off universal £650 million catch-up premium for the 2020-2021 academic year, to ensure that schools have the support they need to help all pupils make up for lost teaching time. Although, all children have had their education disrupted by the coronavirus (COVID-19) outbreak, it is likely that disadvantaged and vulnerable groups will have been most affected. The funding is provided for children from Reception to Year 6.

To support schools to make the best use of this funding, the Education Endowment Foundation (EEF) has published a support guide for schools with evidence-based approaches to catch up. The school has used this document to help inform their use of additional funding in the most effective way.

## Summary of Catch-up Strategy

### Summary of Key Priorities *(related to overcoming challenges for pupils catching up on lost learning)*

<b>1</b>	<p>To ensure that the recovery curriculum is planned, delivered and assessed in such a way that all children are provided with quality first teaching, with the opportunity to 'catch up,' with any lost learning due to Covid-19, whilst ensuring that they also receive a broad and balanced curriculum that is appropriate to their age and/or ability.</p> <p>To ensure that all pupils are attending school regularly and are emotionally supported and ready to re-access formal learning.</p> <p>To ensure that mental health and wellbeing of all pupils is appropriately supported and developed.</p>
<b>2</b>	<p>To ensure quality targeted provision (1:1 and or small group) is planned, delivered and assessed in such a way that identified children make accelerated progress.</p>
<b>3</b>	<p>To ensure that the school continues to work closely with external agencies to access the support for pupils/families.</p>

### Summary of Intended Outcomes

<b>1</b>	<p>By the end of the Summer term, children should (with quality first teaching and support where required) have regained academic confidence to resume their learning at their expected key stage/level. Any children identified as not meeting this expectation receive further targeted intervention.</p> <p>Children relish returning to school, settling back into new routines and following behavioural expectations with immediate effect.</p> <p>Positive impact of strategies implemented to support children's mental health, well-being, personal, social and emotional development.</p>
<b>2</b>	<p>Targeted provision (1:1 and or small group) will have greatest impact on accelerating the progress of identified children.</p> <p>Children will be expected to undertake summative and formalised assessment throughout the year, which will identify support needed to close any gaps that have occurred to ensure they are ready to approach their testing with confidence. The school expects, over the course of the year, to be able to guide the children to a point where outcomes are broadly in line with previous years.</p>
<b>3</b>	<p>The school will continue to receive effective support from different agencies/services so that pupils and families are successfully supported.</p>
