

31st March 2020

Dear children of Sacred Heart School,

Hello again! It is wonderful to receive so many photos showing the different ways that you are keeping yourselves busy. Keep sending in your fantastic work and photos.

Take care and stay safe

Miss McCarthy

30 Day Lego Challenge

This has been a very popular challenge. It is great to see the fantastic contributions that have been posted on Twitter and also the photos which have been sent in to the school email address. Here are some of them.

Our Little Chefs!

Evie has been busy baking some wonderful oat biscuits with her sister Lottie.

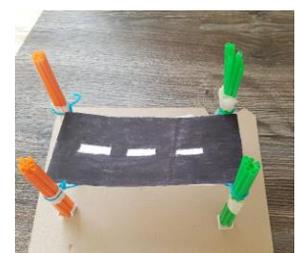

Creative Writing

It was lovely to receive some fabulous pieces of writing examples from Maeve and Alfie. Maeve has been busy writing her own version of Goldilocks and Alfie has written his own story.

DT Projects

Bridge made from straws and paper by Kaavya

Mr Longman's Keepie-Uppie Challenge!

Mr Longman and Mr Aston really enjoy kicking a football around. Obviously they would only ever kick a football around outside or in the school hall and they definitely know that they must never kick a football around inside the staffroom or house!

Mr Longman's challenge is to see how many keepie-uppies you can do with a new toilet roll (or an empty toilet roll tube)! Make sure you have enough space to attempt the challenge and try to use both feet when keeping the toilet roll in the air. You might even be able to use other parts of your body too!

Don't forget you can tweet us @NewsfromSHS with pictures of your attempts and how many keepie-uppies you have managed.

Building a Bug Hotel

Samuel and Dominic have continued to be very busy and they have built a fantastic bug hotel to encourage lots of little creatures to stay in their garden. I really like the Vacancies sign! Well done.

Keeping Fit and Active

I'm sure that lots of you have been enjoying the Joe Wicks fitness sessions. Here is James who has enjoyed playing Swingball in the garden.

Mrs O'Connor's Den Building Challenge

We have had more pictures sent to us of some great dens that have been built. Well done to Aiden and Aria and Leo.
